PORTFOLIO WEBSITE ?

Introduction

- A personal portfolio website acts as an immersive window into a person's creative and professional life.

- Making a website for your personal portfolio gives you the chance to highlight your abilities, accomplishments, and character.
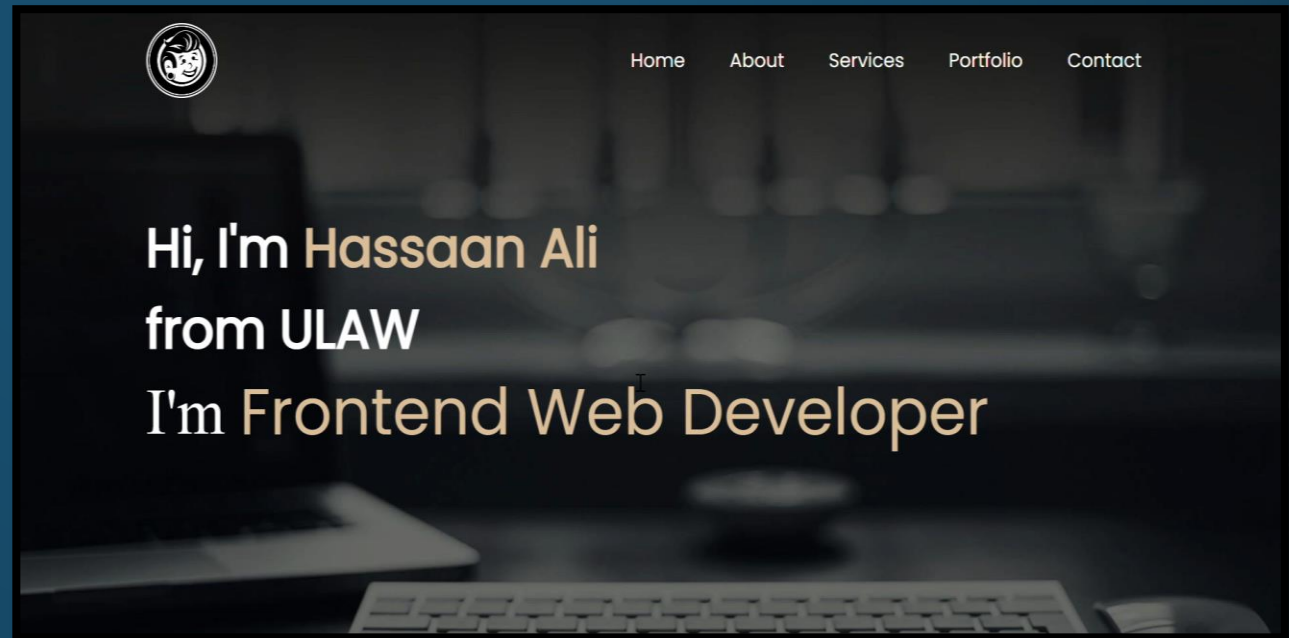

PURPOSE

➢ **Showcasing Work**

➢ **Professional Presence**

➢ **Skill Demonstration**

➢ **Accessibility and Convenience**
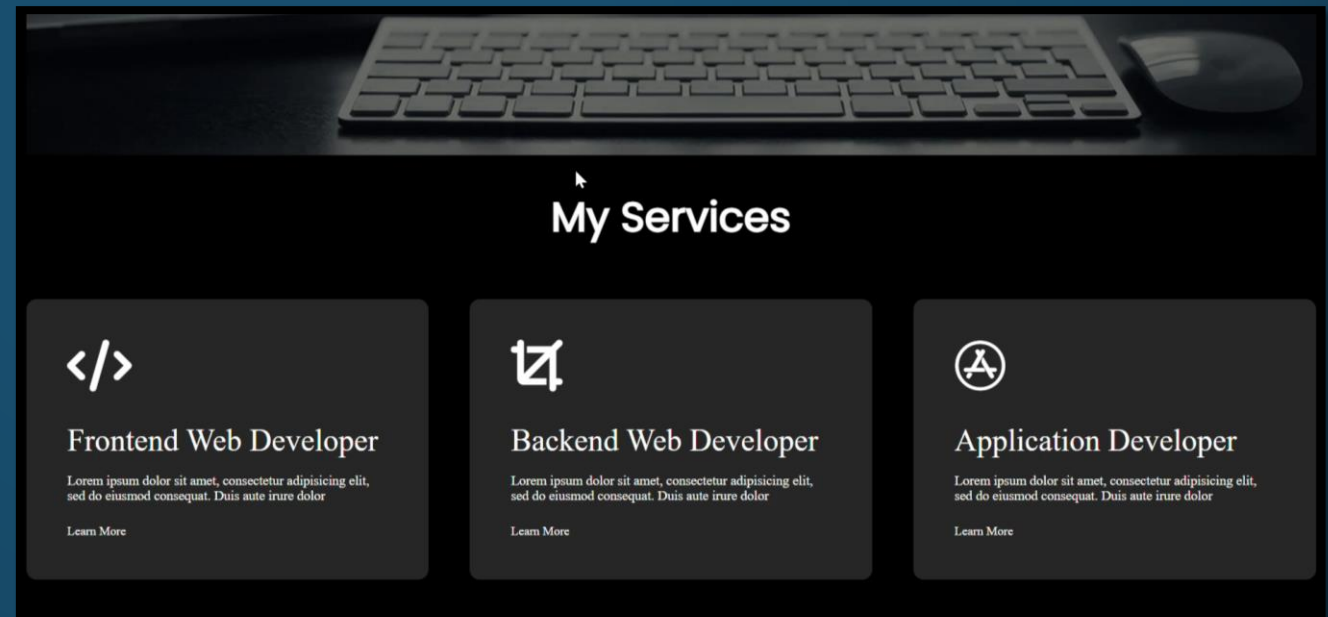

PERSONAL PORTFOLIO | HOME PAGE

This online platform opens with a friendly homepage that is purposefully designed to provide a brief overview of the user's abilities.

➢ Greetings

➢ Navigation

➢ Animation

PERSONAL PORTFOLIO | MY SERVICES

➢ Clear Service Offerings

➢ Descriptions and Details

➢ Visual Elements

➢ Responsive Design

PERSONAL PORTFOLIO | ABOUT ME

➢ The "About Me" section on a portfolio website is a crucial element that provides visitors with insight into who you are, your background, and what makes you unique. It serves as a personal introduction and an opportunity to connect on a more human level.

➢ Personal Story

➢ Skills & Expertise

PERSONAL PORTFOLIO | MY WORK

➢ The "My Work" or "Portfolio" section of your website is a central component where you showcase the projects, creations, or accomplishments that highlight your skills and expertise.

➢ Project Thumbnails

➢ Project Descriptions

➢ Visuals and Media

PERSONAL PORTFOLIO | CONTACT ME

➤ In contact section we are displaying our detail

➤ Contact Information

➤ Social Media Links

➤ Preferred Contact Method

CONCLUSION

In this project we are successfully completed portfolio website using HTML, CSS and JavaScript. In this project we have learnt many concepts of HTML, CSS and JavaScript. And this website is amazing in IT Technology and Modern ERA. So it will be very useful for clients to hire particular services by viewing this portfolio website.

THANK YOU!
